INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or preemptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1985, ch. 127, pars. 1001 et seq., as amended).

307.1102 Amend

4) Statutory Authority: Illinois Environmental Protection Act (Ill. Rev. Stat. 1988, ch. 111 1/2 pars. 1010 and 1027).

5) A Complete Description of the Subjects and Issues Involved:

This matter comes before the Board on a Petition for Site Specific Rule Change filed on behalf of the Reilly Tar and Chemical Corporation's Granite City Facility. The petition was filed with the Board on March 8, 1988. Presently, the concentration of mercury in the wastewater discharge from the Reilly Tar and Sand Chemical Corporation's Granite City facility is governed by the effluent standards for mercury in 35 Ill. Adm. Code Section 307.1102. Section 307.1102(a) limits the concentration of mercury in any discharge to a publicly owned, or publicly regulated, sewer system to 0.0005 milligrams per liter, subject to the averaging rule contained in 35 Ill. Adm. Code 304.104(a). The existing exceptions to the standard established by Section 307.1102(a) are laid out in the subsequent paragraphs of Section 307.1102. The petitioner petitions the Board to further amend 35 Ill. Adm. Code Section 307.1102 to add the paragraph set forth below.

6) Will this proposed rule replace an emergency rule currently in effect? Yes ☒ No ☐

7) Does this rulemaking contain an automatic repeal date? Yes ☒ No ☐
If "yes," please specify the date: _____

8) Does this proposed amendment contain incorporations by reference? No

- c) It shall be an exception to subsection (a) if all the following conditions are met:
- 1) The discharger does not use mercury; or, the discharger uses mercury and this use cannot be eliminated; or, the discharger uses mercury only in chemical analysis or in laboratory or other equipment and takes reasonable care to avoid contamination of wastewater; and,

What These Rules Do

As originally adopted, these rules required school districts and cooperatives/joint agreements to develop charts of accounts to be used in their accounting systems based on the contents of this manual.

GASB-Mandated Changes

Interfund transfers into a particular fund and proceeds from the sale of bonds (principal, premiums, and accrued interest) have until now been recorded and reported as "Revenues." The Governmental Standards Accounting Board (GASB) has mandated that these items be recorded and reported as "Other Financing Sources," and Table C has been altered to conform to this requirement. (Account numbers in the 1960 and 1970 series have been deleted, and account numbers in the 7000 series have been added.)

Interfund transfers out of a particular fund have been recorded and reported as "Expenditures." GASB has mandated that these items be recorded and reported as "Other Financing Uses." Accordingly, numbers have been added to and deleted from Table D (8000 and 4300-4700, respectively).

Revisions have been required not only as regards the location of these items in relation to other items in the manual, but also in their numbering.

Legislative Changes

P.A. 84-126 added educational service centers, and vocational education regional delivery systems have also been added to the educational structure in Illinois; these entities have been added to the entities covered by these rules. (See Sections 110.10 and 110.90.)

P.A. 84-1334 changed the permissive authority to make certain interfund transfers. This is reflected in the addition of account numbers 7150 (in Table C) and 8150 (in Table D).

STATE BOARD OF EDUCATION

NOTICE OF ADOPTED AMENDMENTS

P.L. 99-272 mandated that, for employees hired after a certain date who were excluded from coverage under Social Security, school districts must make contributions to the "Medicare Only" portion of that program. An additional account number (214) is needed in Table D to account for this new expenditure. Further, P.A. 84-1472 authorized school districts to levy a tax for the purpose of making such "Medicare Only" payments. Revenue accounts in the 1150 series (Table C) were added to account for these monies.

Other Changes

When possible, language was condensed, simplified, or otherwise revised to make the description clearer and more useful to the people who use this document on a regular basis. We have been able to eliminate some portions of the text by using more generic definitions covering all the examples involved. The special education and adult education descriptions (1200 series and 1300 series) in Table D illustrate this approach.

Section 110.20 Fund Accounting

- a) Financial administration requires that each transaction be identified for administrative and accounting purposes. The first identification is by "fund" which is an independent fiscal and accounting entity, requiring its own set of books self-balancing accounts, and created in accordance with special regulations, restrictions, and limitations that earmark each fund for a specific activity or for attaining certain objectives (see Table A). Each fund must be accounted for so that the identity of its resources and obligations and its revenues and expenditures is continually maintained. The identification of the assets on the accounting records is sufficient except in the case of some federal programs which require separate bank accounts for cash.

- b) The number of funds to be maintained by a particular LEA depends on the nature of its operations and on the number of tax levies rather than on the size of the LEA. Whenever a tax levy is authorized for a given purpose, a fund shall be established to insure proper legal accountability for the revenues and expenditures is required. This results in a minimum of two funds for every operating school district in Illinois: an Educational Fund and an Operations, Building and Maintenance Fund.

- c) If the LEA filed a separate levy is file- for municipal retirement and filed a levy for social security and retirement medicare only purposes, then the LEA must maintain a Municipal Retirement Fund Social Security Fund.

- d) If taxes are levied to retire bond principal and to pay bond interest, and/or service charges thereon, then the LEA must maintain a Bond and Interest Fund for each outstanding bond issue.

- e) If pupils are transported at school district expense either to and from school or for other purposes, a Transportation Fund must be maintained.

- f) If bonds are sold to finance the construction of new buildings, a Site and Construction Fund must be maintained to account for the bond proceeds of each bond issue.

STATE BOARD OF EDUCATION

NOTICE OF ADOPTED AMENDMENTS

- g) If bonds are sold for a Working Cash Fund ~~to be used to finance the operation of the school district~~, a separate fund must be created. This fund may would also be created by the filing of a working cash tax levy.

- h) If buildings are rented from the Capital Development Board, a Rent Fund must be maintained.

- i) In addition to the funds, there are two self-balancing groups of accounts for maintaining accounting records of capital assets and long-term liabilities. The Capital Assets Group of Accounts and General Fixed Assets Account Group records all tangible fixed assets of the LEA including land, buildings, machinery, equipment, furniture and fixtures, regardless of which fund provided the cash at the time of purchase. The Long-term Liabilities Group of Accounts General Long-Term Debt Account Group records all outstanding bonds of the LEA and the interest obligation for each bond issue generally showing scheduled payments by years other long-term debt.

- j) To designate the nine funds and two groups of accounts by symbol rather than using the full descriptions, this standardized numerical designation will be used as the code for this dimension.

- 1) 10 for Educational Fund
- 2) 20 for Operations, Building, and Maintenance Fund
- 3) 30 for Bond and Interest Fund
- 4) 40 for Transportation Fund
- 5) 50 for Municipal Retirement/Social Security Fund
- 6) 60 for Site and Construction Fund
- 7) 70 for Working Cash Fund
- 8) 80 for Rent Fund
- 9) 90 for Capital Improvements Fund
- 10) 98 for Capital Assets Group of Accounts General Fixed Assets Account Group
- 11) 99 for General Long-Term Debt Account Group Liabilities Group of Accounts

STATE BOARD OF EDUCATION

NOTICE OF ADOPTED AMENDMENTS

- k) LEA's shall use funds appropriate to the legal requirements of their operations and code such funds in the fund dimension. For example, if fund 50 is not used because it is unnecessary to maintain a Municipal Retirement/Social Security Fund, Code 50 cannot be used to designate the Site and Construction Fund since 60 has already been (for the purpose of this dimension) assigned as the standard code for the Site and Construction Fund.

(Source: Amended at 13 Ill. Reg. 7610, effective May 4, 1989)

Section 110.25 Transfer of Interest to Other Funds

INTEREST EARNED FROM THE VARIOUS FUNDS MAY BE TRANSFERRED TO OTHER FUNDS WHICH ARE DETERMINED TO BE IN NEED OF THE INTEREST INCOME UNLESS OTHERWISE RESTRICTED BY BOARD RESOLUTION. However, pursuant to Section 10-22.44 of The School Code (Ill. Rev. Stat. 1985 1987, ch. 122, par. 10-22.44), INTEREST EARNED ON FUNDS FOR THE PURPOSES OF ILLINOIS MUNICIPAL RETIREMENT UNDER THE PENSION CODE; TORT IMMUNITY UNDER THE LOCAL GOVERNMENTAL AND GOVERNMENTAL EMPLOYEES TORT IMMUNITY ACT; FIRE PREVENTION AND SAFETY; ENVIRONMENTAL AND ENERGY; AND CAPITAL IMPROVEMENTS MAY NOT BE TRANSFERRED. Interest earned on the Working Cash Fund may only be transferred to the Educational Fund, Transportation Fund, or the Operations, Building, and Maintenance Fund. Interest earned on any bond proceeds must be earmarked for the purposes for which the bonds were issued or for payment of the principal and interest on these bonds. Money in the bond and interest account which is left over after a project has been completed, and the bonds have been paid in full, may be transferred to the Operations, Building, and Maintenance Fund, or the fund which bears the nearest relation to the purpose for which the bonds were issued, or if it is interest money, to the fund which is determined to be in most need of the funds.

(Source: Amended at 13 Ill. Reg. 7610, effective May 4, 1989)

Section 110.30 Balance Sheet Accounting

There are three major groups of balance sheet accounts in the balance sheet: assets, liabilities, and fund balance. All transactions must be recorded in the general ledger either individually or in summary form. Even though a majority will be recorded in more than one ledger, there are some which will be recorded in only the general ledger. This type of transaction requires a descriptor indicating the fund and the specific accounts to be affected.

(Source: Amended at 13 Ill. Reg. 7610, effective May 4, 1989)

Section 110.40 Revenue Accounting

- a) Transactions to be recorded in the revenue ledger are those that represent the receipt of cash without creating a liability or

STATE BOARD OF EDUCATION

NOTICE OF ADOPTED AMENDMENTS

without canceling an asset. For example, tax collections are revenues, but cash received from the sale of tax anticipation warrants is not a revenue since a concurrent obligation is incurred to repay at a later date. Revenues act to increase the fund balance, i.e., the equity of the fund. If the LEA is on a cash basis, revenues are recorded only when actually received. If the LEA is on an modified accrual basis, revenues are recorded when earned.

- b) It is important to make a distinction between the revenue of a fund and the revenue of the LEA as a whole. Revenue of a fund increases its assets and fund balance but may not, in each case, increase the total assets and fund balance of the LEA. A common example is the sale of school bonds, where the proceeds of the bonds sold are revenues to a fund (Site and Construction Fund); i.e., they increase the fund's assets and fund balance, but they do not increase the equity or fund balance of the LEA, and therefore are not revenues. These are non-revenue receipts for the LEA. The issuance of the bonds, however, increases the liabilities and they are recorded in the General Long-Term Debt Account Group of Accounts as a credit.

- c) School system revenues are derived from three major sources: local, state and federal, and flow-through.

- 1) Revenue from local sources is the amount of money earned within the boundaries of the LEA and is available for its use (1000 Revenue). Money collected by another governmental unit as an agent of the LEA in the same amount as collected (for less collection cost), is recorded as revenue from local sources. Shared revenue (revenue levied by another governmental unit, but shared in proportion to the amount collected within the LEA) is also recorded as revenue from local sources.

- d) Revenue from state sources is revenue from funds collected by the state and distributed to LEA's (3000 Revenue).

- e) Revenue from federal sources is revenue from funds collected by the federal government and distributed to LEA's. It is unimportant whether the funds are distributed directly to the LEA system by the federal government or through some intervening agency such as the state (4000 Revenue). When a local or intermediate school system does not have a method for determining the pro-rata share of federal, state and other sources of revenue in a commingled grant, the distributing agency should provide this information to the local or intermediate agency.

STATE BOARD OF EDUCATION

NOTICE OF ADOPTED AMENDMENTS

4) Flow-through revenue is money received from another LEA. This revenue represents funds for specific grant-related purposes. (2000 Revenue).

d) In addition to fund-and-balance-sheet-accounts-identification, revenue-type Revenue transactions must be described and coded as to the specific sources from which they are derived or to which they are attributable.

(Source: Amended at 13 Ill. Reg. 7610, effective May 4, 1989)

Section 110.50 Expenditure Accounting

a) Transactions recorded in the appropriation, expenditure, and encumbrance ledger are commonly referred to as expenditure type transactions, and this type represents the payment of cash or the establishment of an obligation (encumbrance) without creating an asset or without canceling a liability. For example, payment of a teacher's salary is an expenditure, but cash disbursed to purchase a United States Treasury Bill is not an expenditure (balance sheet only type) since a concurrent right is created to receive cash at a later date. Additionally, authorizations in the form of appropriations are included in this type of transaction.

b) There are eleven classification groups (referred to as dimensions) which may be used to describe expenditure type transactions. Each dimension is composed of mutually exclusive items or categories of information. An LEA must use the dimensions applicable to its operations to establish a chart of accounts for use in maintaining accounting records and generating management reports. Presented below are the dimensions followed by a brief discussion of each. It should be noted that certain dimensions might be combined into a single account number when an LEA develops its charts of accounts.

c) Eleven Classifications Listed and Discussed

1) "Fiscal Year" Fiscal year denotes a twelve-month period of time to which the annual budget applies and at the end of which an LEA determines its financial position and the results of its operations. In some instances, funds are appropriated for a program or activity which may extend into another fiscal year or, in some cases, by project year (for federal programs). For example, if teachers are employed on a nine-month basis but are paid in twelve equal installments, including one in July and one in August of the following fiscal year, the payroll for these staff members should carry

STATE BOARD OF EDUCATION

NOTICE OF ADOPTED AMENDMENTS

a fiscal year code of the previous fiscal year rather than the one in which they were paid. In addition to being important to the fiscal agency, this dimension has value for the program manager as it provides insight into the amount of money available. Very likely, this dimension will not be recorded on each transaction in these LEAs operating in a noncomputerized mode. These using computers may encode a fiscal year.

2) "Fund" This dimension is discussed in Table A of this Part.

3) "Source of Funds" This dimension is used to relate expenditure type transactions to the source of categorical funding. It provides the capability of exercising budgetary control and the preparation of special and federal program reports. This dimension, however, is not applicable to those transactions which cannot be related to a specific source of funding.

4) "Instructional Organization" The general types of schools or other organizational entities providing instruction are included in this dimension. Examples of instructional organization would include Elementary, Middle/Junior High School, and High School.

5) "Operational Unit" The term is used to denote the location of education activities for organizational purposes. It is the site of a physical plant which houses an organizational unit. These units correspond to individual schools, in most cases, and can be used to designate school cost centers. In other words, budgets and expenditures may be made for each school or operational unit. Such units are locations of specific schools, of transportation, of administration, of warehouses, etc.

6) "Function" Function means the action or purpose for which a person or thing is used or exists. Function includes the activities or actions which are performed to accomplish the objectives of the enterprise. The activities of a local school system are classified into six broad areas: Instruction, Supporting Services, Community Services, Nonprogrammed Charges, Debt Services, and Provision for Contingencies. Functions and subfunctions consist of activities which have somewhat the same general operational objectives. Furthermore, categories of activities comprising each of these divisions and subdivisions are grouped according to the principle that the activities should be combinable, comparable, relatable and mutually exclusive.

STATE BOARD OF EDUCATION
NOTICE OF ADOPTED AMENDMENTS

- 7) "Object" This dimension is used to describe the service or commodity obtained as a result of a specific expenditure. The eight object categories are identified in Table D of this Part: Salaries, Employee Benefits, Purchased Services, Supplies and Materials, Capital Outlay, Other, Transfers, and Tuition. These eight broad categories are further subdivided into subobjects for more detail about the service or commodity acquired.
- 8) "Job Classification Activity" Activity assignment refers to a description of the activities assigned to a staff member. This is a dimension used for relating financial information to the various staff assignments so as to interrelate staff activities to a program and its cost.
- 9) "Term" Term is a division of the school year (the 12-month period of time denoting the beginning and ending dates for school accounting purposes) which may be divided into regular and summer terms, semesters, trimesters, or quarters.
- 10) "Subject Matter Area" This dimension describes a grouping of related subjects or units of subject matter under a heading such as English or Agriculture.
- 11) "Program" Program may be defined as a group of interdependent, closely-related services and/or activities progressing toward or contributing to a common objective or set of allied objectives. The program dimension provides the LEA the framework to classify expenditures by program to determine cost. As an example, to gather instructional program information, only direct costs are classified to the instructional function (classroom instructional costs only), and any other costs are classified as support services. For example, special education transportation costs are classified to a support service function (Transportation) even though these costs relate to the special education program. The program dimension allows agencies to charge program costs, instructional and support, directly to the benefiting program. Use of this dimension allows an LEA to classify support services to both programs and functions.

120 "Accounts Receivable" Amounts owing on an open account from private persons, firms, or corporations for goods and services furnished by a LEA (but not including amounts due from other funds or from other governmental units). 303

"Bonds Authorized - Unissued" Bonds which the LEA can issue without further proceedings other than to direct their sale. The account shall be included among the resources of a specific fund offset by a credit to Appropriations. When the bonds are sold, the account shall be credited and Cash debited. An alternative approach is not to show the Bonds Authorized - Unissued account in the balance sheet but merely to call attention to the amount of bonds that have been authorized and not issued in a footnote to the appropriate balance sheet. In this case, the journal entry at the time bonds are sold would be a debit to Cash for the proceeds and a credit to the revenue account, Sales of Bonds.

304

"Instructional Organization"

The general types of schools or other organizational entities providing instruction are included in this dimension. An instructional organization is coded by a single digit.

It is recognized that the instructional organization suggested here may not coincide with that being used in all LEAs, but it does provide basic subdivisions for any organizational structure.

Wherever it does not comply exactly, being in more detail or less, school officials can combine subdivisions or omit some as applicable. Comparability is improved by using the same structure for reporting purposes throughout the nation. In the following definitions, "grade span" can be changed to "age span" when structuring a nongraded school or local educational agency.

SUBPART B: UNDERGROUND STORAGE TANKS -- TECHNICAL REQUIREMENTS

Section 170.530 Methods of Release Detection for Tanks

Each method of release detection for tanks used to meet the requirements of Section 170.510 must be conducted in accordance with the following:

- a) Inventory control. Product inventory control (or another test of equivalent performance) must be conducted monthly to detect a release of at least 1.0 percent of flow-through plus 130 gallons on a monthly basis in the following manner:
 - 1) Inventory volume measurements for regulated substance inputs, withdrawals and the amount still remaining in the tank are recorded each operating day;
 - 2) The equipment used is capable of measuring the level of product over the full range of the tank's height to the nearest one-eighth of an inch;
 - 3) The regulated substance inputs are reconciled with delivery receipts by measurement of the tank inventory volume before and after delivery;
 - 4) Deliveries are made through a drop tube that extends to within one foot of the tank bottom;
 - 5) Product dispensing is metered and recorded, pursuant to Section 8 of the Weights and Measures Act (Ill. Rev. Stat. 1987, ch. 147, par. 108); and
 - 6) The measurement of any water level in the bottom of the tank is made to the nearest one-eighth of an inch at least once a month. (Practices described in the API Recommended Practice 1621, incorporated by reference in Section 170.410, may be used, where applicable, as guidance in meeting the requirements of this subsection.)
- b) Manual tank gauging. Manual tank gauging must meet the following requirements:
 - 1) Tank liquid level measurements are taken at the beginning and ending of a period of at least 36 hours during which no liquid is added to or removed from the tank;

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF ADOPTED AMENDMENTS

- 2) Level measurements are based on an average of two consecutive stick readings at both the beginning and ending of the period;
- 3) The equipment used is capable of measuring the level of product over the full range of the tank's height to the nearest one-eighth of an inch;
- 4) A leak is suspected and subject to the requirements of 40 CFR 280, Subpart E, incorporated by reference in Section 170.410, if the variation between beginning and ending measurements exceeds the weekly or monthly standards in Table B;
- 5) Only tanks of 550 gallons or less nominal capacity may use this as the sole method of release detection. Tanks of 551 to 2,000 gallons may use the method in place of manual inventory control in subsection (a). Tanks of greater than 2,000 gallons nominal capacity may not use this method to meet the requirements of subsection (b).
- c) Tank tightness testing. Tank tightness testing (or another test of equivalent performance) must be capable of detecting a 0.1 gallon per hour leak rate from any portion of the tank that routinely contains product while accounting for the effects of thermal expansion or contraction of the product, vapor pockets, tank deformation, evaporation or condensation and the location of the water table.
- d) Automatic tank gauging. Equipment for automatic tank gauging that tests for the loss of product and conducts inventory control must meet the following requirements:
 - 1) The automatic product level monitor test can detect a 0.2 gallon per hour leak rate from any portion of the tank that routinely contains product; and
 - 2) Inventory control (or another test of equivalent performance) is conducted in accordance with the requirements of subsection (a).
- e) Vapor monitoring. Testing or monitoring for vapors within the soil gas of the excavation zone must meet the following requirements:
 - 1) The materials used as a backfill are sufficiently porous (e.g., gravel, sand, crushed rock) to readily allow diffusion of vapors from releases into the excavation area;

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF ADOPTED AMENDMENTS

- 2) The stored regulated substance, or a tracer compound placed in the tank system, is sufficiently volatile (e.g., gasoline) to result in a vapor level that is detectable by the monitoring devices located in the excavation zone in the event of a release from the tank;
 - 3) The measurement of vapors by the monitoring device is not rendered inoperative by the ground-water, rainfall, soil moisture or other known interferences so that a release could go undetected for more than 30 days;
 - 4) The level of background contamination in the excavation zone will not interfere with the method used to detect releases from the tank;
 - 5) The vapor monitors are designed and operated to detect any significant increase in concentration above background of the regulated substance stored in the tank system, a component or components of that substance, or a tracer compound placed in the tank system;
 - 6) In the UST excavation zone, the site is assessed to ensure compliance with the requirements in subsections (e)(1) through (4) and to establish the number and positioning of monitoring wells that will detect releases within the excavation zone from any portion of the tank that routinely contains product; and
 - 7) Monitoring wells are clearly marked and secured to avoid unauthorized access and tampering.
- f) Ground-water monitoring. Testing or monitoring for liquids on the ground-water must meet the following requirements:
- 1) The regulated substance stored is immiscible in water and has a specific gravity of less than one;
 - 2) Ground-water is never more than 20 feet from the ground surface and the hydraulic conductivity of the soil(s) between the UST system and the monitoring wells or devices is not less than 0.01 cm/sec (e.g., the soil should consist of gravels, coarse to medium sands, coarse silts or other permeable materials);
 - 3) The slotted or perforated portion of the monitoring well casing must be designed to prevent migration of natural soils or filter pack into the well and to allow entry of regulated

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF ADOPTED AMENDMENTS

substance on the water table into the well under both high and low ground-water conditions;

4) Monitoring wells shall be sealed from the ground surface to the top of the filler pack;

5) Monitoring wells or devices intercept the excavation zone or are as close to it as is technically feasible;

6) The continuous monitoring devices or manual methods used can detect the presence of at least one-eighth of an inch of free product on top of the ground-water in the monitoring wells;

7) Within and immediately below the UST system excavation zone, the site is assessed to ensure compliance with the requirements in subsections (e)(1) through (5) and to establish the number and positioning of monitoring wells or devices that will detect releases from any portion of the tank that routinely contains product; and

8) Monitoring wells are clearly marked and secured to avoid unauthorized access and tampering.

g) Interstitial monitoring. Interstitial monitoring between the UST system and a secondary barrier immediately around or beneath it may be used, but only if the system is designed, constructed and installed to detect a leak from any portion of the tank that routinely contains product and also meets one of the following requirements:

1) For double-walled UST systems, the sampling or testing method can detect a release through the inner wall in any portion of the tank that routinely contains product; the provisions specified in STI, "Standard for Dual Wall Underground Storage Tank", incorporated by reference in Section 170.410, may be used as guidance for aspects of the design and construction of underground steel double-walled tanks;

2) For UST systems with a secondary barrier within the excavation zone, the sampling or testing method used can detect a release between the UST system and the secondary barrier;

A) The secondary barrier around or beneath the UST system consists of artificially constructed material that is sufficiently thick and impermeable (not in excess of 0.000001 cm/sec for the regulated substance stored) to

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF ADOPTED AMENDMENTS

direct a release to the monitoring point and permit its detection;

B) The barrier is compatible with the regulated substance stored so that a release from the UST system will not cause a deterioration of the barrier allowing a release to pass through undetected;

C) For cathodically protected tanks, the secondary barrier must be installed so that it does not interfere with the proper operation of the cathodic protection system;

D) The ground-water, soil moisture or rainfall will not render the testing or sampling method used inoperative so that a release could go undetected for more than 30 days;

E) The site is assessed to ensure that the secondary barrier is always above the ground-water and not in a 25-year flood plain, unless the barrier and monitoring designs are for use under such conditions; and

F) Monitoring wells are clearly marked and secured to avoid unauthorized access and tampering.

3) For tanks with an internally fitted liner, an automated device can detect a release between the inner wall of the tank and the liner, and the liner is compatible with the substance stored.

h) Other methods. Any other type of release detection method, or combination of methods, can be used if:

1) It can detect a 0.2 gallon per hour leak rate or a release of 150 gallons within a month with a probability of detection of 0.95 and a probability of false alarm of 0.05; or

2) The Office of the State Fire Marshal may approve another method if the owner and operator can demonstrate that the method can detect a release as effectively as any of the methods allowed in subsections (c) through (h); the demonstration of any such method shall be by writing submitted to the Office. In comparing methods, the Office shall consider the size of release that the method can detect and the frequency and reliability with which it can be detected. If the method is approved, the owner and operator must comply with any conditions imposed by the Office on its

use to ensure the protection of human health and the environment. Before the utilization of the method, the Office shall issue written approval.

Section 304.120 which would expand the applicability of what is commonly referred to as the "lagoon exemption". The lagoon exemption allows certain wastewater treatment facilities to be subject to the less stringent effluent standards of 30 milligrams per liter (mg/l) for five-day biochemical oxygen demand (BOD₅) and 37 mg/l for suspended solids if the facility utilizes third-stage treatment lagoons. Without the availability of the lagoon exemption such facilities would be subject to a BOD₅ and SS standards of 10 mg/l and 12 mg/l respectively. Specifically, the Board adopted amendments which would allow privately owned wastewater treatment facilities to qualify for a lagoon exemption to the same extent as publicly owned treatment works (POTW). In addition, the Board expanded the scope of applicability of the lagoon exemption to include wastewater treatment works with an untreated waste load of 5000 population equivalents or less which has reached the end of its useful life and which has received an adjusted standard determination from the Board (pursuant to Section 28.1 of the Environmental Protection Act) that it qualifies for a lagoon exemption. The Board may make such a determination if the wastewater treatment source proves that it is so situated that a land treatment system is not a suitable treatment alternative. A land treatment system is a wastewater treatment system which does not directly discharge treated effluent to waters of the State but instead uses treated effluent to irrigate terrestrial vegetation. A favorable adjusted standard determination by the Board only fulfills the requirements of Section 304.120(c)(1). The facility still must meet the requirements of Section 304.120(c)(2) (the lagoons are properly constructed, maintained and operated) and (c)(3) (the deoxygenating constituents of the effluent do not, alone or in combination with other sources, cause a violation of the applicable dissolved oxygen standard).

Except as provided in Section 306.103, all effluents containing deoxygenating wastes shall meet the following standards:

- a) No effluent shall exceed 30 mg/l of five day biochemical oxygen demand (BOD₅) (STORET number 00310) or 30 mg/l of suspended solids (STORET number 00530), except that treatment works employing three stage lagoon treatment systems which are properly designed, maintained and operated, and whose effluent has a dilution ratio no less than five to one or who qualify for exceptions under paragraph subsection (c) shall not exceed 37 mg/l of suspended solids.
- b) No effluent from any source whose untreated waste load is 10,000 population equivalents or more, or from any source discharging into the Chicago River System or into the Calumet River System, shall exceed 20 mg/l of BOD₅ or 25 mg/l of suspended solids.
- c) No effluent whose dilution ratio is less than five to one shall exceed 10 mg/l of BOD₅ or 12 mg/l of suspended solids, except that sources employing third-stage treatment lagoons shall be exempt from this paragraph subsection (c) provided all of the following conditions are met:
 - 1) The waste source qualifies under one of the following categories:
 - A) Any wastewater treatment works with an untreated waste load less than 2500 population equivalents, which is sufficiently isolated that combining with other sources to aggregate 2500 population equivalents or more is not practicable.
 - B) Any wastewater publicly owned treatment works in existence and employing third-stage treatment lagoons on January 1, 1986, whose untreated waste load is 5000 population equivalents or less and sufficiently isolated that combining to aggregate 5000 population equivalents or more is not practicable.
 - C) Any wastewater publicly owned treatment works with an untreated waste load of 5000 population equivalents or less, which has reached the end of its useful life by January

NOTICE OF ADOPTED AMENDMENTS

SUBPART A: CHILD SUPPORT ENFORCEMENT

Section 160.5 Definitions

"AFDC" refers to the Aid to Families with Dependent Children Program, Title IV-A of the Social Security Act (42 U.S.C. 601 et seq.) that is financial and medical assistance available to families with one or more dependent children or on behalf of dependent children in foster care under the guardianship of the Department of Children and Family Services.

"AFDC recipient" refers to a person who is receiving financial and medical assistance under the AFDC program in the current month.

"Assignment of support" refers to the transfer of support rights to the Department by the acceptance of AFDC benefits, pursuant to 42 U.S.C. 602(a)(26)(A) and Section 10-1 of The Illinois Public Aid Code (Ill. Rev. Stat. 1987, ch. 23, par. 10-1).

"Cancellation" refers to the discontinuance of AFDC financial and medical benefits for an assistance unit because of the failure to satisfy the conditions of eligibility under the Title IV-A State Plan.

"Child support enforcement services" refers to those services provided to establish, enforce and collect support, in accordance with an approved State Plan under Title IV-D of the Social Security Act (42 U.S.C. 654).

"Family Support Information System" or "FSIS" refers to the data processing system used to process all IV-D cases in Illinois.

"IV-D account receivable" or "support account" refers to a part of the accounting system in FSIS used to record charges, payments, and account adjustments for a particular account. More than one account may exist for a given caretaker relative and for a given responsible relative. For example, a mother with two children by one father from one marriage, and three children by a second father from another marriage, will have two support accounts if there are two separate support obligations. If children are born in

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

Section 160.5 Definitions (cont'd.)

a non-marital relationship, there will be one account per child.

"IV-D program" or "IV-D" refers to the child support program set forth in 42 U.S.C. 651 et seq. and this part of the Department administrative rules.

"Responsible relative" refers to a person who is responsible, or alleged to be responsible, under law for support of a dependent.

"Support case" refers to a case established in the FSIS for the purpose of providing establishment, enforcement and collection services to dependent children and their custodial parent, in accordance with the provisions of Title IV-D of the Social Security Act (42 U.S.C. 654).

"Support obligation" refers to the duty a non-custodial relative owes to his or her dependents, as set forth in a legally-valid court or administrative order.

"Unreimbursed AFDC" refers to the total amount of financial assistance provided to a family unit, in accordance with Title IV-A of the Social Security Act (42 U.S.C. 601 et seq.) for which the State and Federal governments have not been reimbursed. The State and Federal governments are limited in the amount of support payments they may retain for "unreimbursed AFDC", in accordance with the provisions set forth in Sections 160.100, 160.110 and 160.130 of this Part. The amount of unreimbursed assistance accrued prior to the AFDC cancellation, reported in the Department's "Statements of Child Support Account Activity for Former Recipients" (see Section 160.140), is that limited amount which the Department is entitled to retain.

Section 160.10 Child Support Enforcement Program

a) Under Title IV-D of the Social Security Act (42 U.S.C. 651 et seq.) the Department undertakes to establish, modify, enforce and collect child and spouse support obligations from responsible relatives as defined in 89 Ill. Adm. Code 103.10. "IV-D cases" consist of:

- 1) children receiving AFDC;
 - 2) children receiving foster care maintenance payments under Title IV-E of the Social Security Act (42 U.S.C. 670 et seq.);
 - 3) a spouse or former spouse when the former spouse/spouse lives with the child;
 - 4) former AFDC recipients following AFDC cancellation pursuant to subsection (g) below;
 - 5) persons not receiving AFDC, upon application to the Department for such services; and

- b) Title IV-D is implemented by the Department through its Bureau Division of Child Support Enforcement.
- c) The Bureau Division of Child Support Enforcement has sole responsibility for:
- 1) identifying and locating the absent parent;
 - 2) establishing the parentage of a child born out of wedlock;
 - 3) establishing support obligations;
 - 4) enforcing and collecting support;
 - 5) receiving and distributing support payments;
 - 6) maintaining accurate records of location and support activities; and

- 7) advising the local office of circumstances which may affect the family's eligibility for AFDC (e.g., the father is living in the home, or a child no longer lives in the home, etc.).

d) For Title IV-D children, the Department determines financial ability and establishes the support obligation of the absent parent through order of the court or through administrative process in accordance with Section 160.60.

e) The Department shall explain to each AFDC applicant or recipient his/her responsibility to cooperate with the Department in obtaining support from absent parents and enforcing support obligations and the consequence of noncooperation.

f) For active AFDC cases, payments up to \$50 of the current child support collected by the Department in a month will be disbursed to the assistance unit. Payment will be made in the second month following the month the child support payment is received by the Department. This payment will be disregarded when determining eligibility for assistance and the amount of the AFDC assistance grant.

g) Whenever a family ceases to receive AFDC cash assistance, the Department shall:

- 1) continue to provide all appropriate Title IV-D services to the family for a period of five (5) months following the month in which the family ceases to receive assistance. The Department shall not charge fees or recover costs during this period for the Title IV-D services provided. Current support payments shall be directed to the family by the Department;

SUBPART F: DISTRIBUTION OF SUPPORT COLLECTIONS

Section 160.100 Distribution Of Child Support For AFDC Recipients

- a) For the purposes of distribution under this Section, amounts collected shall be treated first as payment on the required support obligation for the month in which the child support was collected and if any amounts are collected which are in excess of such amount, these excess amounts shall be treated as amounts which represent payment on the required support obligation for previous months. Effective June 9, 1988, the date of collection shall be the date on which payment is received by the Clerk of the Circuit Court or the Department, whichever occurs first.

- b) Child support payments which are received by the Department for a month in which a client is an AFDC recipient shall be distributed as follows:

- 1) Pass Through: Of any amount that is collected in a month which represents payment on the required support obligation for that month, the first \$50.00 of such amount shall be paid to the family. This payment will be forwarded to the family in the second (2nd) month following the

Section 160.100 Distribution Of Child Support For AFDC
Recipients (Cont'd)

month the child support payment is collected. This payment will be disregarded when determining eligibility for AFDC and the amount of the AFDC grant. If the amount collected includes payment on the required support obligation for a previous month or months, the family shall only receive the first \$50.00 of the amount which represents the required support obligation for the month in which the support was collected. If amounts are collected for a single filing unit (see 89 Ill. Adm. Code 112.300(b)) which represent support payments from two or more responsible relatives, only the first \$50.00 of the amount collected which represents the total required support obligation for the month in which the support was collected shall be paid to the family under this subsection. No payment shall be made to a family under this subsection for a month in which there is no child support collection.

2)

Reimbursement of Current AFDC: If the amount of child support collected in a month on behalf of an AFDC recipient exceeds the amount to be paid to the family pursuant to subsection (b)(1), the excess shall be retained by the Department to reimburse the Department for the assistance payment for the month in which the support was collected or the next month.

3)

Current Excess: If the amount of child support collected in a month on behalf of an AFDC recipient exceeds the amount to be distributed pursuant to subsections (b)(1) and (b)(2) above, the family shall be paid such excess up to the difference between the AFDC grant for the month in which the amount of the collection was used to redetermine eligibility for AFDC (see 45 CFR 302.32)(1987) and the court ordered amount for that month. This payment shall be forwarded to the family in the month following the month in which the amount of the collection was used to redetermine eligibility for the family. If such court ordered amount is less than the AFDC grant,

Section 160.100 Distribution Of Child Support For AFDC
Recipients (cont'd.)

no amount shall be paid to the family under this subsection. In those cases where there is no court order, the family shall not be paid any amount under this subsection.

4)

Reimbursement of Past AFDC: If the amount of child support collected in a month on behalf of an AFDC recipient is in excess of the amount required to be distributed pursuant to subsections (b)(1) through (b)(3) above, any such excess shall be retained by the Department as reimbursement for past assistance payments made to the family for which the Department has not been reimbursed. The Department will apply the amount retained to any sequence of months for which the Department has not yet been reimbursed. If past assistance payments made to the family are greater than the unpaid support obligation, the maximum amount the Department can retain as reimbursement for such assistance payments is the amount of such obligation, unless amounts are collected which represent the required support obligation for periods prior to the first month in which the family received assistance, in which case such amounts can be retained by the Department to reimburse the difference between such support obligation and such assistance payments.

5)

Past Excess: If the amount of child support collected in a month on behalf of an AFDC recipient is in excess of the amount required to be distributed pursuant to subsections (b)(1) through (b)(4) above, such excess shall be paid to the family. This payment shall be made in the month following the month in which the amount of the collection was used to redetermine eligibility for AFDC.

c)

If an amount collected as support represents payment on the required support obligation for future months, the amount collected shall be applied to such future months. However, no such amounts shall be applied to future months unless amounts have been collected which

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

fully satisfy the support obligation assigned for the current month and all past months.

- d) Identification of Child Support Payment: Any support payment issued to the family under subsections (b)(3) or (b)(5) above shall be identified on its face as being for child support.

(Source: Added at 13 Ill. Reg. 7761, effective May 22, 1989)

Section 160.110 Distribution Of Child Support For Former AFDC Recipients Who Continue To Receive Child Support Enforcement Services

Child support payments which are received by the Department on behalf of a former AFDC recipient who continues to receive child support enforcement services, shall be distributed in accordance with the provisions of subsections (a) through (e) below.

- a) Current Support: Upon cancellation of AFDC, a client's assignment of support ceases (see Section 160.20), except with respect to the amount of any unpaid support obligation that has accrued under such assignment. For any month in which a client is not an AFDC recipient, regardless of whether such client continues to receive child support enforcement services, the client is entitled to the amount of current support paid for that month, up to the amount of the monthly support obligation for that month. Current support payments to former AFDC recipients who do receive child support enforcement services from the Department shall be issued within fourteen (14) calendar days of receipt by the Department.

- b) Unpaid Current Support Accrued Following Cancellation: If the amount of child support collected in a month on behalf of a former AFDC recipient who receives child support enforcement services exceeds the amount of current support distributed pursuant to subsection (a) above, the client shall be paid any such amount, up to the unpaid

current support obligation which has accrued for any month following cancellation of the client's AFDC case in which the client received child support enforcement services. Such payments to former AFDC recipients shall be issued within fourteen (14) calendar days of receipt by the Department.

- c) Unreimbursed AFDC: If the amount of child support collected in a month on behalf of a former AFDC recipient exceeds the amount to be distributed pursuant to subsections (a) and (b) above, the excess shall be retained by the Department to reimburse it for past unreimbursed AFDC. If the unpaid support obligation is greater than the past unreimbursed AFDC, then the maximum reimbursement amount is the amount of unreimbursed AFDC the Department has provided. If the past unreimbursed AFDC is greater than the unpaid support obligation, then the maximum reimbursement amount is the amount of the unpaid support obligation, unless amounts are collected which represent the required support obligation for periods prior to the first month in which the former AFDC recipient received AFDC, in which case such amounts will be retained by the Department to reimburse the difference between such support obligation and such past unreimbursed AFDC.

- d) Past Excess: If the amount of child support collected in a month on behalf of a former AFDC recipient exceeds the amount to be distributed pursuant to subsections (a), (b) and (c) above, the excess, up to the amount of the unpaid support obligation, including the unpaid obligation for months prior to the first month in which the former AFDC recipient received AFDC, shall be paid to the client. Such payments to former AFDC recipients shall be issued no later than the end of the month following the month in which the support payment was received by the Department.

- e) Amounts In Excess of the Child Support Obligation: If the amount of child support collected in a month on behalf of a former AFDC recipient who continues to receive child support enforcement services exceeds the

Section 1030.70 Driver's License Testing/Vision Screening

An applicant for an initial or renewal driver's license shall comply with the following provisions:

- a) The Driver Services Department shall administer the vision examination screening to any applicant who is required to take a vision aid screening. However, applicants who desire to use any vision aid arrangement, other than standard eye glasses, or contact lens(es) shall submit a Vision Specialist Report form or in lieu of such form an ophthalmologist or optometrist statement may be submitted as indicated in Section 1030.75.
- b) An applicant who is required to take a vision screening must obtain a binocular (both eyes) acuity reading of 20/40 or better before being issued a driver's license without vision restrictions. If an applicant utilizes corrective eye glasses, contact lenses or a combination thereof in order to obtain an acceptable acuity reading, a driver's license issued to this applicant shall be restricted to operating a motor vehicle while using the corrective lenses.
- c) An applicant who obtains a binocular (both eyes) acuity reading of 20/41 to 20/70 inclusive may be issued a driver's license restricting said applicant to operate a motor vehicle during daylight only.
- d) An applicant who uses eye glasses or contact lenses in binocular (both eyes) screening and has an acuity reading of 20/41 to 20/70 inclusive shall be issued a driver's license restricting said applicant to operate a motor vehicle while wearing said eye glasses or contact lenses during daylight only.
- e) A screening will be administered for individual eyes to determine the need for an outside rear view mirror.
- f) An applicant who obtains a monocular (individual eye) acuity reading, which is not better than 20/100 with or without standard eye glasses or contact lens(es) shall be restricted to a outside rear view mirror(s).

SECRETARY OF STATE

NOTICE OF ADOPTED AMENDMENTS

- g) An applicant who is required to take a vision screening must demonstrate a peripheral field of at least 140° degrees binocular or 70° degrees horizontal and 35° degrees nasal monocular. If, an applicant only qualifies monocularly, he/she will be restricted to operating a motor vehicle equipped with both a left and right rear view mirror. Any applicant who cannot meet the minimum peripheral field of vision requirements may submit a Vision Specialist Report or, in lieu of the report form, a statement from a physician, ophthalmologist, or optometrist may be submitted as indicated in subsection (e) (n) of this Section.
- h) An applicant has not been properly screened unless such person demonstrates his or her best seeing ability.
- i) If the applicant is wearing contact lens(es), such applicant shall not be required to remove such lens(es) to take the vision screening.
- j) If the applicant desires to remove the contact lens(es) in order to obtain an unrestricted license, said applicant may do so.
- k) If the applicant does not have his/her eye glasses or contact lens(es) with said applicant, he/she may proceed with the vision screening. If the applicant does proceed, but subsequently fails without said applicant's eye glasses or contact lens(es), said applicant may return at a later date with the eye glasses or contact lens(es) to retake the vision screening.
- l) If an applicant obtains a reading without correction which would restrict said applicant to daylight driving only and/or left outside rear view mirror, the applicant shall be issued a license or an instruction permit with a restriction, if said applicant has satisfied all other requirements for the issuance of a driver's license or an instruction permit. If the applicant wishes to have the license or instruction permit issued on the basis of a Vision Specialist's Report rather than the Secretary of State's vision screening, said applicant may exercise the option of visiting a Vision Specialist for an independent vision screening.
- m) If the applicant returns at a later date with corrective glasses or contact lens(es) with which the applicant successfully meets the vision standard, the restriction will be removed.
- n) The appropriate fee will be required to change a restriction if the permanent driver's license has been or is in the process of being issued. If the applicant has not yet successfully completed the written or road test portion of the examination, no fee is required to change the restriction.

SECRETARY OF STATE

NOTICE OF ADOPTED AMENDMENTS

- o) An applicant may submit a Vision Specialist Report form or, in lieu of such form, a statement from a licensed physician, ophthalmologist or optometrist may be submitted. The Statement must be on a letterhead or prescription blank imprinted with the name, address, and title of the person making the certification. Such statement must contain the name and Driver's License Number or name, date of birth and sex of the applicant as well as the signature and certificate number of the person authorized to certify the vision examination. No statement shall be acceptable if the date of the vision examination is more than six months prior to the date of the applicable driver's license examination. Such statement or form may contain a notation if the applicant's condition is deteriorating; recommendations for driving restrictions compatible to the applicant's visual ability, (i.e. area limitations, speed limitation); recommendations for re-examination compatible to the applicant's visual stability. Each report shall include a statement of release to the Office of the Secretary of State, which has been signed and dated in the presence of the Vision Specialist or Physician.
- p) If an applicant fails the vision screening or the applicant does not wish to accept a certain driving restriction they may submit a Vision Specialist Report form or in lieu of the report form a statement from a licensed physician, ophthalmologist or optometrist as prescribed in (e)(n) of this Section, may be submitted.
- q) If the Vision Specialist's Report or statement indicates a different acuity reading or peripheral field of vision from the reading obtained by examining personnel, the Vision Specialist's Report or statement will be used, even if it means the addition or deletion of restrictions.
- r) Every person who has a valid driver's license may be required to be re-examined at the discretion of the Secretary of State, for good cause, as provided for in Section 1030.15 of this Part, to determine if the licensee meets the minimum standards as set forth in this rule.

- 5) Date JCAR Statement of Objection Published in the Register:
March 17, 1989, 13 Ill. Reg. 3416

- 6) Summary of Action Taken by the Agency: The Joint Committee objected to Section 120.130 of the Board's rules based upon the Board's implementation of the reimbursement program described therein prior to the completion of the necessary rulemaking activities as required by the Illinois Administrative Procedure Act.

While the Board acknowledges the validity of the Joint Committee's concern, the Board feels that neither modifying nor withdrawing this Section of the rules would in any way address the substance of the objection. The Board reiterates its position that, at the point in time when funds were actually made available for the subject reimbursement program, only two courses of action were open to the Board. School districts could be reimbursed in accordance with the intent of the General Assembly in enacting this program, or the funds could be allowed to lapse based on the absence of rules setting forth procedural detail. The former course of action was clearly more favorable to the affected parties, and allowing the funds to lapse would have been a disservice to school districts entitled to reimbursement.

Although the Board consistently endeavors to undertake its rulemaking in a timely manner, the Board sometimes finds itself unable to complete all required activities in such a way as to conform to the IAPA. In the present instance, modifying or withdrawing Section 120.130 would only prolong the situation to which the Joint Committee has objected. The Board therefore declines to modify or withdraw this rulemaking in response to the objection.
